SUMMARY

Versatile builder shipping production systems across AI agents, mobile apps, web platforms, and blockchain. Currently operates in multiple technical roles in surgical robotics manufacturing at Intuitive Surgical — bridging Production, MES, SAP, and Quality — while delivering side projects that include an autonomous AI marketing stack, a Solana micropayment protocol for AI agents, React Native productivity apps with bilingual support, and an ML diagnostic framework that won Best Local Impact at the 2025 Intuitive AI Fair. Pursuing B.S. in Artificial Intelligence Engineering. Operator's eye for real workflows over demos. Bilingual EN/ES.

EXPERIENCE

NPI Manufacturing Technician & Process Automation

2024 – Present

Intuitive Surgical · Santa Clara, CA

- Applied ML & data: Designed a supervised-learning diagnostic framework (Python / scikit-learn) to classify manufacturing anomalies from production process logs — won Best Local Impact at the company-wide Intuitive AI Fair 2025.
- Process automation: Built an n8n workflow that converts SMS-triggered inputs into completed Excel material-transfer forms and auto-routes them via Gmail; paired with a Python CLI helper, eliminating a recurring manual task from daily operations.
- System design: Self-proposed and architected a Process-Log Validation System (RN-001, REV C) inside DELMIA Apriso MES — 8 validation scenarios using non-blocking soft warnings that enforce data integrity at closure; iterated with MES Engineering and the system architect.
- Cross-functional ownership: Simultaneously operate as Rework Technician, Functional Tester, Documentation Specialist (designated DN Closer), Deputized Trainer, and Back-up Lead — bridging Production, MES Engineering, SAP, and Quality across the full da Vinci NPI build lifecycle.
- Unblocking teams: As Back-up Lead, the go-to resource for resolving technical and process blockers in real time — coordinating with MES and SAP owners, eliminating bottlenecks, keeping the cell producing across shifts.
- Compliance discipline: Sole designated owner in the NPI cell for closing Deviation Notices and maintaining MPIs, IPCs, and Process Logs under FDA and Intuitive GMP.

PROJECTS

agentic-marketing-stack

n8n · GPT-4o · DALL-E · Creatomate API · Meta Graph API · Google Sheets API

Autonomous AI Marketing Operator

- Production system orchestrating a daily content pipeline: GPT-4o copy generation → DALL-E image creation → Creatomate video render → automated upload + tracking in Sheets.
- Meta DM auto-response with error handling routed to email and WhatsApp; running on real client work, not a prototype.

AgentPay

React Native · Expo · Supabase · i18n (EN/ES)

React Native Productivity Apps

- Lumen: emotional reflection app with bilingual UX and Supabase-backed persistence; full ship cycle from design to deployed builds.
- Lumen Flow: Pomodoro / time-management app with localized content, custom session flows, and offline-first state.

Lumen & Lumen Flow

React · TypeScript · Supabase · Tailwind

Full-Stack Web App

- Web app that captures structured troubleshooting flows for technical work; auth, persistence, and search backed by Supabase.

TECHNICAL SKILLS

AI & Agents: LLM APIs (OpenAI, Anthropic) · Pydantic structured outputs · AgentField agent framework · n8n agentic workflows · scikit-learn · Prompt engineering

Languages: Python (pandas, scikit-learn) · TypeScript / JavaScript · Rust · SQL · Bash

Mobile & Web: React Native + Expo · React · TypeScript · Tailwind · i18n

Backend & Data: Supabase (Postgres, Auth, Storage) · REST APIs · Webhooks · pandas / SQL data work

Blockchain: Solana · Anchor framework · USDC / SPL · HTTP 402 payment flows

Manufacturing Systems: SAP · DELMIA Apriso MES · Agile / ACCS · FDA / GMP / GDP compliance

Tools & Infrastructure: Ubuntu / Linux · Git / GitHub · CI/CD basics · Docker (basics)

Other: CCNA self-study · HackTheBox · English & Spanish (bilingual, native fluency)

EDUCATION

B.S. Artificial Intelligence Engineering (In Progress) — Hybridge Education

Philosophy & Humanities — Foundational Studies — Seminario Diocesano de San Juan de los Lagos, MX

AWARDS

Best Local Impact at the 2025 Intuitive AI Fair

LANGUAGES

English · Spanish
